

## AD HOC KOMPETENCE

### KONSULENTPROFIL: DKR 452

#### Dennis

Mobile app developer, deeply engaged with programming primarily Swift, Objective-C, but also Android(Java).

I'm always curious about what is happening in the fast pace development of the mobile platforms.

#### HAND PICKED EXPERIENCES/PROJECTS

##### **Nets A/S, Ballerup — iOS Consultant**

January 2017 - June 2017

Nets A/S is among other a payment solution provider, and the sole handler of NemID, securely identifying danish citizen.

The project's main goal was to build a SDK for banks and public institutions, and replace the real world paper key card. Mobile Key Card (Mobilt nøglekort) which makes it much easier to log in to your bank and public services.

The keywords for this project was security above all, certificate pinning, ECC and RSA key generation using Apple's framework and OpenSSL, obfuscation and so forth.

We also build demo apps for the banks and public institutions. Will be out early 2018.

Objective-C, Firebase, OpenSSL was used.

##### **CubeIO, Herlev — iOS Consultant**

October 2016 - January 2017

Making of/steamlining a self service app for one of Denmark's largest telecommunication providers, Fullrate, working closely with backend, making it possible for customers to record conversations, redirecting calls etc.

Swift was used.

##### **Dish-of-the-Day, Copenhagen — iOS Developer**

January 2015 - Ongoing

Making of a kind of restaurant portal app, where several restaurant are connected to backend putting in offers for meals and so forth. It's an location aware app

The solution integrates MobilePay and pay by credit cards.

I made both the iOS version and the Android version.

#### SKILLS

- iOS development, which involves Swift, and Objective-C programming.
- I'm used to working in an agile environment, and using Jira, Slack and so forth.

I also have a strong graphic eye and used to working with Adobe's tools like Illustrator, Photoshop and After Effects.

#### LANGUAGES

Danish, english, german

## AD HOC KOMPETENCE

Swift and Java

### **Fitness.dk, Copenhagen — iOS Developer**

February 2016 - July 2016

Fitness.dk is the largest gym chain in Denmark.

Adding new features to an existing app.

Objective-C

### **Grontmij A/S (now SWECO), By Consult Solutions — iOS Developer**

April 2015 - June 2015

SWECO is one of Europe's largest consulting engineering companies. Making an app, Affaldsportalen, for citizens getting notified about garbage collections among other things.

Objective-C

### **Schultz Information, Copenhagen — iOS Developer**

June 2012 - October 2012

Schultz Information provides IT solutions for public institutions and services in Denmark.

Making an app, Uddannelsesguiden, for people to look up information and material about different educations.

Objective-C

## EDUCATION

### **Copenhagen University, Copenhagen — Cand. Polit Bachelor**

June 1995 - June 2000

## SPARETIME

My spare time is used on being out in the nature, boating, flying drone, taking photos, walking my dog.

I also read a lot about what is going on in the community of developing apps, trying new technologies.
